

Labeling Information

FOB Label information

Notes:

Bottom case markings:

Magenta color indicates markings to be laser etched.

Green color indicated markings to be engraved into mold tooling ("polished in-mold").

"ZZZZZZZZ" represents the eight-character, hexadecimal-encoded serial number to be assigned by Dayton. All leading zeros to be preserved. Serial numbers to be unique and incrementing.

"RR" represents the two-character revision level for Segway part 18900-00001.

Battery door markings:

Exterior:

Segway name and logo to be pad printed as shown.

CE mark (height = 5mm) and "MADE IN CHINA" to be "polished in-mold".

Interior:

"CR2430" to be engraved. Size accordingly to fit (inside surface not shown).
