

Series Difference Description

Applicant: Fluke Corporation

Product Name: Acoustic Imager

Brand: Fluke

Primary Model: ii1050

Series Model: ii1030

Fluke Corporation hereby declares that the differences between the primary model and the series model are only in the model number and software. ii1050 has more measurement range and features. All others are identical. The product indeed belongs to the same product series, and its technical specifications and radio frequency performance are the same. This statement is hereby made for clarification.
