Intertek ETL Semko
1365 Adams Court
Menlo Park, California

Att: Mr. Ollie Moyrong

Subject: Confidentiality Section 0.459 FCC rules
FCC ID T9I-914205

Dear Sir:

Request is hereby submitted by *Codman Neuroscience SARL*, to withhold from public review certain portions of the application for equipment certification for the referenced FCC identifier. In particular we want the User manual #2 filed with the application to be held confidential.

The file contains User Manual #1 and User Manual #2. The User Manual #1 contains the required warning statements and general instructions on the use T9I-914205 Control Unit. User Manual #2 contains information on the interface of the product software and operating features of the overall system including the pump that is not part of this application. At this time as the manufacturer of the product we want to maintain confidentiality over the features of the system described in User Manual #2 until the product is released into the market.

Thank you for your prompt attention to this matter.

Jack Murray
