SAFETY PRECAUTIONS:
BATTERY WARNING:
KEEP THIS PACKAGE FOR REFERENCE, AS IT CONTAINS IMPORTANT INFORMATION.
OPERATING INSTRUCTIONS
Each robot requires 3 "AAA" 1.5V batteries (not included). Each remote control requires 1 9V battery (not included). When changing batteries, adult supervision is required. Use alkaline batteries for best performance.
1. Carefully remove items from the package.
2. Locate the battery compartment on the back of each robot, as well as each remote.
3. Using a screwdriver the screws and remove battery doors. Slide doors open on RC units.
4. Insert "AAA" batteries inside robots while observing the correct polarity in each compartment (see diagram). Insert one 9V battery into each remote control.
5. Replace the battery doors and tighten screws.
6. Switch robot and remote control power switches to the "ON" position. The power switch is located on the side of the robot(s).
NOTE: Before use, adjust the robots to make sure both feet have good contact with the ground. Use on a hard, flat surface (not carpet) for best results.
Each robot requires 3 "AAA" 1.5V batteries (not included).
Each remote requires 1 9V battery (not included).
LEFT JOYSTICK
RIGHT JOYSTICK
OPERATING CONTROLS
HOW TO PLAY
There are sensors located beneath each robot's chest plate. The object of the game is to knock the opposing boxer's head off by making contact with the chest (thus ejecting the robot's head). When the head ejects, the power will be cut off. To control the robots, the head has to be attached to the body. To replace the head pull on it & lay it forward onto the neck and gently press down until it clicks into place.
WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio TV technician for help.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
