KEEP THIS PACKAGE FOR REFERENCE AS IT CONTAINS IMPORTANT INFORMATION.

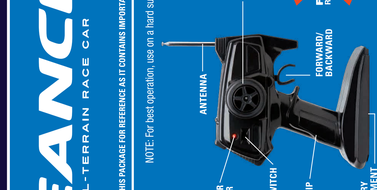
BATTERY INSTALLATION

NOTE: For best operation, use on a hard surface.

Operation requires one NiCad rechargeable battery pack (included) for car and one 9V battery (included) for radio controller.

- Carefully remove items from package.
- Locate the battery compartment on the back of each item.
- Loosen screw on the back of the car to open the battery cover and connect the battery pack.
- Replace the battery compartment door.
- Slide open the battery compartment door of the controller.
- Insert the one 9V battery following the correct polarity.
- Replace the battery compartment door.

BASIC CAR OPERATION



SAFETY PRECAUTIONS

- Do not operate during thunderstorms or rain.
- Avoid water, sand and snow when operating car.
- Do not disassemble car or remote control.
- Never operate your car on the street or highway.
- Never operate your car in a confined or crowded area, and do not use people or animals as targets.
- Do not let your car run into furniture, objects or hard surfaces, as this will cause damage to both the objects and the car.
- Keep fingers, hair and loose clothing away from the tires, gears and motor while the car is operating.
- Do not leave car or transmitter near sources of heat or under direct sunlight for long periods of time.
- Do not leave car or transmitter outside overnight. Dampness is harmful to electronic components.
- Remove all batteries when not in use to avoid accidental operation.
- Adult supervision is recommended when operating this car.

BATTERY WARNING:

- Do not mix old and new batteries.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- Insert batteries using the correct polarity. Do not connect batteries improperly.
- Only batteries of the same or equivalent type as recommended are to be used.
- Batteries are to be inserted with the correct polarity.
- Exhausted batteries are to be removed from the product.
- The supply terminals are not to be short-circuited.
- Charging of non-rechargeable batteries is not allowed.
- Rechargeable batteries are to be removed from the product before being charged.
- Rechargeable batteries are only to be charged under adult supervision.

KEEP THIS PACKAGE FOR REFERENCE AS IT CONTAINS IMPORTANT INFORMATION.

****CONTAINS NICKEL-CADMIUM BATTERY****
BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY.

STEERING ALIGNMENT ADJUSTMENT:

To fine-tune the steering control, locate the alignment switch on the underside of the chassis. Steering with the lever in the middle position, test drive your car and adjust as needed. Should the car pull to the left or right, simply move the lever until your car drives straight without touching the directional controller.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
