

FCC Compliance Class B Digital Device:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION:

Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

RF exposure warning:

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.

Music for Your Eyes

TapTap Music & Light Show Creator

TapTap is designed to provide you with an easy way to create a unique musical light show with your smart phone or tablet. It can be used both indoors and outdoors.

Compatibility of light strings

TapTap is compatible with most 110V Christmas light strings with standard AC plug. Please notice that the light strings cannot have an existing controller.

Inside the box

*Weatherproof Cover will keep the TapTap protected from dust and/or humidity when not in use.
*Use Weatherproof Cover (AC-Input) to protect the TapTap from water and snow damage. Do not use it if there is a fire.

Components and Light Indicators

Installation of Your TapTap

For Wall Mounting

1. Attach the two screws to the wall.
2. Mount your TapTap on the screws through the two mounting holes on the back of TapTap.

For Ground Staking

1. Press the pole into the ground.
2. Assemble the stand to the pole using the screws and metal gasket.
3. Place the TapTap device on the stand, then fix the screws on the left and right.

Setup 1: Power on TapTap

1. Connect the power cable to the TapTap device.
2. Plug your light strings into the six outlets on the TapTap. Each outlet controls a single light string that will flash along with the music. Please notice that don't exceed the maximum load for respective outlet (1A), and it's for Christmas light string only. E.g., 1A=50mA (per light string) x maximum 20 light strings.
3. Press the power button. The Wi-Fi signal LED lights and cloud service light will start to blink. The blinking lights will speed up shortly after.
4. Wait for couple seconds until the Wi-Fi signal LED lights will be flashing left and right (1 <-> 1-). This indicates that TapTap is boot completely.

04

Setup 2: Get the Application

1. Download the TapTap from the App Store or Google Play simply searching: TapTap Light Show.
2. Launch the app and create a new account, then start setting up your TapTap. Please make sure you enter a valid email address.

* The TapTap app supports smartphone and tablets.

05

Setup 3: Connect TapTap to WiFi Router

06

Setup 4: First Musical Light Show

* In order to improve the user experience on TapTap and TapTap app, we will continuously update our services. For full information about TapTap app, please check our website.
