This is to request a Class II permissive change for **FCC ID: TFO-13011**, originally granted on **04/10/2014**.

We changed the following points from the original model, but the transmitter module itself has not changed.

1. Update part list
 - 1.1 U1 MCU changed masking code, but the new chip is pin to pin compatible.
 - 1.2 C7 and C8 Metal film capacitors changed to SMD capacitors.
2. Change product appearance

Sincerely yours,

Mr. Thomas Seifert
Managing Director
