Subject: CONFIDENTIALITY REQUEST

Gentlemen:

Pursuant to 47 CFR 0.457 of the FCC Rules, Texas Instruments Incorporated respectfully requests confidentiality of certain materials provided with the submission of the S4100 Multi-Frequency Reader under FCC ID: 001377968 in accordance with FCC Regulations 0.459. The confidentiality request applies to the following materials: Embedded Reader Module part number RF-MGR-MNMN-N3, bill of materials, electrical schematics, reader block diagram and theory of operation statement contained in this filing. The S4100 Multi-Frequency Reader Module has been developed at considerable effort and expense by Texas Instruments Incorporated. These items are considered as Trade Secrets and are not normally released to any party or person outside Texas Instruments, therefore public access to the proprietary material could result in release of information to competitors that could severely damage the company's business advantage.

It is understood that the information will be held confidential as long as the FCC retains the information or until a request for inspection is filed and approved per 47 CFR 0.461.

I appreciate your assistance in this matter.

Sincerely,

Julie S. England
Vice President
