

TRANSMITTER

Functions

- When battery power is low, the vehicle may not stop entirely, however, it will feature a delayed response, reduced speed or erratic operation. The vehicle's lights will flash, and the transmitter will emit continuous "beep-beep-beep" warning tones. If the vehicle is operating in water when these tones sound, it should be taken out immediately.
- Do not drop the transmitter into water. The transmitter is not waterproof.

Syncing

This transmitter is equipped with 2.4GHz technology which allows up to 6 vehicles to be raced at the same time. Before first use and after any time the batteries are replaced, the transmitter must be paired to the vehicle.

To sync transmitter and vehicle, follow the steps below:

- Correctly install batteries in the transmitter, and turn transmitter ON/OFF switch to the ON position. The Power Indicating Light flashing.
- Place vehicle upside down, and long press the vehicle power switch to power it on. The Vehicle is only in sync mode for 30 seconds.
- Immediately press and hold the Forward/Reverse joystick on the transmitter. Keep holding until wheels move (up to 30 sec.), the transmitter power light, front headlights and rear taillights stay on.

PROPER USE

Wheele Bar Disassembly & Assembly

Precautions and Care

This vehicle is engineered to run on the water's surface. Fully submerging beneath water will damage internal electronics and mechanical parts.

- Do not operate the vehicle in salt water.
- Do not run the vehicle in ponds with aquatic plants, trash or other obstructions, as these may damage or jam the wheels.
- Do not operate the vehicle in areas with strong water currents or high winds.
- Do not use the vehicle outdoors during thunderstorms.
- Always return the vehicle to shore and remove it from the water before the battery depletes completely.
- Wipe the vehicle dry with a towel after each use.

Caution: Never use chemicals (including benzene, alcohol or thinner) to clean the vehicle.

SUPPORT

Trouble shooting & Support

- Problem - Vehicle does not move or moves slowly.**
- Make certain there are fresh alkaline batteries in the transmitter and that they have been installed in the correct position. You may need to re-sync the transmitter and vehicle. Refer to sync instructions.
 - Are the (+) and (-) markings on the alkaline batteries in the same position as the (+) and (-) markings in the Transmitter Battery Compartment?
 - Are the metal contact tabs touching, rusty or dirty in the transmitter?
 - When the remote control or vehicle has low power, the remote control distance will be affected. In the meanwhile, there will be too low speed or climbing difficulty.
 - Has the battery soft pack been installed in the vehicle?
 - Make certain that the vehicle ON/OFF switch is in the "ON" status.

Problem - Vehicle moves by itself or exhibits reduced range from the transmitter.
Make certain there are no outside radio interference in your area. The best way to test this is to take the vehicle as far away from radio towers, electrical lines or tall buildings as possible to ensure no further radio interference will occur.

- Do not recharge Battery Pack if it is hot or warm to the touch. Allow Battery to cool before recharging. Recharging a hot or warm Battery will shorten the life of the unit.
- Do not recharge the Battery if it appears to be damaged or leaking.
- Do not use the included battery charging cord for any purpose other than its intended use.
- Do not dispose batteries in fire. Leakage, explosion and personal injury may occur.
- Do not attempt to disassemble Battery soft pack or Battery Charging Cord.
- Always turn the transmitter OFF and remove the batteries from it when not in use.
- Only an adult should charge Batteries.
- Always remove Battery Pack from Battery Compartment when not in use.
- Dispose of Lithium-Ion Battery Pack properly.
- When the vehicle moves, please don't touch the four wheels of the vehicle, so as to avoid twist wound or incised wound.
- Do not drop the vehicle from heights or subject it to heavy collisions, as this may damage the transmitter and shorten the vehicle's service life.
- Please do not play the vehicle near the roadside, puddle, earth or other dangerous places, so as to avoid danger.

F.C.C. CAUTION:
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

OWNER'S MANUAL

Please read and understand all precautions prior to use.

USA & Canada
90-Day Limited Warranty

Motor Dayz warrants to the original purchaser that this product will be free of defects in materials and workmanship for ninety (90) days from the date of purchase. If a defect arises within the warranty period, Motor Dayz will, at its sole discretion, provide replacement parts, replace the product, or offer a coupon for our website for a new product of at least equal value. This Warranty does not cover damage resulting from unauthorized modifications, accidents, misuse, or abuse. A dated sales receipt is required for coverage under this Warranty. Purchases from unauthorized retailers, resellers, or distributors are not covered under this Warranty.

Should your item have a defect covered under this Warranty, either call the Consumer Service team by phone or email using the contact details listed below. Most issues can be resolved through troubleshooting in this manner. If necessary, you will be issued a Case Number and be provided instructions on how to obtain replacement parts, a replacement product, or a coupon. Please allow 2 to 4 weeks for processing and delivery, depending on your location. Motor Dayz covers the cost of shipping for valid claims within the USA and Canada. DO NOT send any product to Motor Dayz. Any unsolicited product returns will be refused delivery and returned at the sender's expense.

Motor Dayz's liability for defects in materials and workmanship under this warranty is limited to providing replacement parts, a replacement product, or a coupon at Motor Dayz's sole discretion. In no event shall Motor Dayz be responsible for any incidental, consequential or contingent damages.

Valid only in the USA & Canada.
