

INSTRUCTIONS

As illustrated,

1. Place the device beside your existing wifi router, power it on.
2. Connect the two devices with the attached cable. Do pay attention to plug one cable head into the WAN port of the new device, and the other head to the LAN port of the existing router.
3. Find the wifi name and the password from the bottom label of the new device, connect it, and enjoy your internet.

Configuration

1. Connect the Ethernet cable to the LAN port and your notebook/computer.
2. Power up.
3. Open Internet Explorer from your notebook/computer
4. Enter: <http://10.10.10.254>
5. Enter the **Username** and **Password**. If this is the first time use, than enter "admin" and "admin" on both username and password.

Federal Communication Commission Interference

Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
