FCC ID: TMB-OSDI4W1

Product Name: Open Smart Device Interface (OSDI) SecureMesh Module
Applicant: Trilliant Networks Inc.

Class II Permissive change

Dear Examiner,

This is to request a Class II Permissive change for the OSDI SecureMesh Module product originally granted in Mai 2016.

The change under this application is to add a new host PCB antenna trace layout.

The use of the OSDI SecureMesh Module in new products involve adding this new host PCB antenna trace layout.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Daniel Tousignant", with a stylized flourish at the end.

Daniel Tousignant, ing.
