

TmoteSky IC label
Moteiv Corporation

Proposed location of the IC label, 5x22mm

Note: Device shown here w/o RF shield attached.

The label would take a form of a sticker permanently glued to the PCB. Note that the company trade name and the product name are already permanently fixed in the product PCB silkscreen. If the above label is not compliant, we'd propose option 2, where all the information required by the RSS-GEN section 5.2 is present on a 5x22mm label:

TmoteSky IC label option 2:
