Cover letter regarding application for certification of FCC ID: TPO-OTD50

The purpose of this new filing is to apply for a new certification for an Electronic Monitoring Ankle Bracelet to be used in portable applications. This new filing contains a Cellular and a Dual-band 802.11 modules.

Telit LE910Cx – FCC ID: RI7LE910CXWWX

Silicon Labs RS9116 – FCC ID: XF6-M7DB7

Since there's no change to conducted RF power, we like to reuse the original submitted conducted RF power measurements for each module. A RF power data referencing report will be provided with submission.

On the cellular module, the client will not have GSM (2G) or WCDMA (3G) active. A tune-up procedure will be provided as evidence.

Submission will also include a SAR report and a Simultaneous Radiated Spurious emissions report with these modules installed into the applicant's end product.

Your effort in reviewing this application is greatly appreciated.

Sincerely,

Brandon Osborn (Agent for Track Group Inc.)
Project Engineer
