

Request for Class II Permissive Change

October 23, 2025

UL Verification Services Inc.
47173 Benicia Street, Fremont, CA 94538

FCC ID: TQ3-CC3135MOD
Applicant: FUJIFILM SonoSite, Inc.

To whom it may concern:

This is to request a Class II permissive change for FCC ID: TQ3-CC3135MOD granted on September 25, 2025.

We have obtained Modular Approval in Mobile configuration for this module. This time, it is used in the portable host devices, (Sonosite iLOOK, Model: L15-5), therefore SAR testing with the host device was performed, and the Class II permissive change application in Portable configuration is submitted.

Below functions and frequencies are disabled or not used by software of host devices.

- 5GHz frequency bands W53, W56 and W58.
- Client mode.

The host software adjusts the transmission output power to a value that does not exceed the module's grant power.

Sincerely,

John Prieve
