FCC Labeling of Widex model CALL-DEX

FCC ID: TTY- CDEX

To Whom It May Concern:

The dimensions of the hearing aid are too small to allow the FCC ID to be printed on the device in a font size that is readable. Consequently, the FCC ID is printed in the user instructions together with the FCC regulatory statements.

Justification is provided by 3 photographs below that show the CALL-DEX in 3 different angles together with a printout of the FCC ID in font size 6 point that is the minimum readable font size as defined in FCC OET Labelling Guidelines.
