Dear user

Thank you for choosing our **REDRAGON** product. To protect your rights and for better customer service, we ask that you note our warranty rules.

1. Within warranty period, repair is guaranteed for failure due to electrical circuit problems. Other damages, such as disassembly, hard impacts, submersion into water, plugging into improper current or voltage, and damage caused by natural disasters such as fire, flood, or earthquake are not included.

2. Consumable parts (such as foot pad) and spare parts replacement are not included in our warranty.

OS Support

Windows XP/Vista/Win7/Win10/Win11

Packaging List:

A. Headset 1 unit

B. Plugable microphone 1 unit

C. Transmitter 1 unit

D. TYPE-C charging cable 1 unit

Transmitter lighting description:

①Blue LED lighting Disconnected

②Blue LED on Connected, microphone ready

③Blue LED on Connected, microphone muted

④Weak LED hole

⑤Volume +

⑥Volume -

⑦Microphone patch

⑧TYPE-C charging port

⑨Luminous LED

⑩Microphone plugging/unplugging instructions

There is a groove at the microphone jack on the left side. When inserting the microphone

into the microphone hole, the convex part of the rod should be inserted toward the

concave side of the hole. If it is inserted reversely or in the wrong position, it can't be

inserted and the microphone function will be affected.

How to charge

1. Insert the TYPE-C interface into the headset, and then plug the other USB port into the computer or DC 5V charging adapter. When charging, the red LED on the headset will be on, and the charging time is about 4 hours.

2. When charging 2.4G mode, the red LED will be on. When fully charged, the red LED will go off.

3. When charging through the USB port on the PC or 2.4G mode, the headset will also switch to USB mode and the red LED is always on when fully charged, the red LED will go off.

4. When charging in BT mode, the headset will be turned off and the red LED will be on.

5. When fully charged, the red LED will go off.

6. When charging with the headset turned off, the red LED will be on. When fully charged, the red LED will go off.

Equipment name description

① USB dongle device name: H878 Wireless headset

② BT mode headset name: H878

③ Wired mode headset name: H878 USB Gaming Headset

How to pair

1. Turn off the headset and remove the transmitter.

2. Press the power button to turn on the headset, the blue LED will turn on and flash slowly.

3. Turn on the transmitter (plug the transmitter into PC, PS4 or smartphone), and the blue LED of the transmitter flashes.

4. Press and hold the headset microphone button for 3 seconds, after successful pairing, you can hear the Gaming Mode prompt, and the blue LED of the transmitter always on.

5. If the transmitter LED is off, it is because the microphone button is held after the devices are successfully paired.

6. The headset and transmitter are automatically paired, and the blue LED is always on (for products that have been paired).

4

Cómo cargar

1. Inserte la interfaz TYPE-C en el auricular y luego conecte el otro puerto USB a la computadora o al adaptador de carga DC 5V. En la carga, el LED rojo de los auriculares se encenderá y el tiempo de carga será de unos 4 horas.

2. Al cargar en modo 2.4G, el LED rojo quedará encendido. Al estar totalmente cargados, el LED rojo se apagará.

3. Al cargar a través del puerto USB de la PC en modo 2.4G, los auriculares también cambiarán al modo USB y el LED rojo siempre estará encendido al estar totalmente cargados, el LED rojo se apagará.

4. Al cargar en modo Bluetooth, los auriculares se apagarán y el LED rojo se encenderá. Al estar totalmente cargados, el LED rojo se apagará.

5. Cuando se carga con los auriculares apagados, el LED rojo estará encendido. Al estar totalmente cargados, el LED rojo se apagará.
