FCC C2PC Reassessment Request Letter

Date: June 8, 2020

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: FCC C2PC Request for (FCC ID: **TV7CPGI5ACD2ND**)

Applicant: Mikrotīkls SIA

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: **TV7CPGI5ACD2ND** originally granted on 10/12/2017 (date). We, MikroTīkls SIA, declare that the originally certificate equipment and the transmitter module itself has not changed and the original RF test results are applicable and representative of this changed device.

We, MikroTīkls SIA, want to modify the authorized equipment for below changes:

- U-NII-2A, U-NII-2C bands and DFS master functions are enabled by embedded software

Except for the changes above, no other modification is performed. The device stays electrically identical to original authorization. Also, the change does not have any impact on the approved radio parameter such as power, frequency range, modulation etc.

Antenna stays identical to original authorization.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

Client's signature:

Client's name & title: Edmunds Zvegincevs / Engineer
