

Model Difference Declaration letter

FCC ID: [TV7SXTS5AX](#)

For our business issue and marketing requirement, we would like to list different model numbers as following:

Product Name	SXTsq 5 ax	LHG 5 ax	LHG XL 5 ax
Model No.	SXTsq-5axD-US	LHG-5axD-US	LHG-5axD-XL-US

The PCBs (including components mounted on the PCB, circuit design and PCB Layout, etc.) of SXTsq-5axD, LHG-5axD and LHG-5axD-XL are exactly the same.

SXTsq-5axD and LHG-5axD/LHG-5axD-XL have different housings and antennas.

SXTsq-5axD uses the Directional antenna with the smallest antenna gain.

Both LHG-5axD and LHG-5axD-XL use the Dish antenna, but the difference is that the sizes of Dish antennas are different, resulting in different gains. Among them, the antenna size of LHG-5axD-XL is larger and the antenna gain is the highest. Please refer to antenna datasheet for the detailed information.
