

Test Report

Report No	EF0764-3
Client	LS Starrett 121 Crescent Street Athol, MA 01331
Phone	978-249-3551
FRN	0014116503
	RSS-210 Issue 6; FCC Part 15.249
Model	1500-3
FCC ID	TV81500-3
IC	6164A-15003
Equipment Type	Low Power Communications Device Transmitter
Equipment Code	DXX
Emission Designator	K1D
Results	As detailed within this report
Prepared by	 David Harris – Test Engineer
Authorized by	 Michael Buchholz – EMC Manager
Issue Date	1/17/06
Conditions of issue	This Test Report is issued subject to the conditions stated in ‘terms and conditions’ section of this report.

Curtis-Straus LLC is accredited by the American Association for Laboratory Accreditation for the specific scope of accreditation under Certificate Number 1627-01. This report may contain data which is not covered by the A2LA accreditation.

Summary

This test report supports an application for certification of a transmitter operating pursuant to 47 CFR 15.249 and RSS-210(A2.9). The product is the EndNode, MN 1500-3. It is a transmitter that operates at 916.5 MHz.

Test Methodology

Radiated emissions testing are performed according to the procedures specified in ANSI C63.4 (2003) and RSS-GEN. Emissions were maximized by rotating the device around three orthogonal axes as well as varying the test antenna's height and polarity. The environmental conditions are shown below.

Date	Temperature (°C)	Humidity (%)
10/20/05	24.2	29
10/28/05	23.4	25

Frequency range investigated: 0.15MHz – 10GHz

Measurement distance:

30MHz – 3GHz	3m
3 – 10GHz	1m

A fresh battery was used for testing.

Statement of Conformity

The EndNode, MN 1500-3 has been found to conform to the following parts:

RSS-GEN	RSS 210	Part 15	Comments
5.3		15.15(b)	There are no controls accessible to the user that vary the output power.
5.2		15.19	The label is shown in the label exhibit.
7.1.5		15.21	Information to the user is shown in the instruction manual exhibit.
		15.27	No special accessories are required for compliance.
7.1.4		15.203	The antenna for this device is hardwired to the PCB.
	2.6	15.205 15.209	The fundamental is not in a Restricted band and the spurious and harmonic emissions in the Restricted bands comply with the general emission limits of 15.209.
7.2.2		15.207	EUT meets the AC Line conducted emissions requirements of 15.207.
	A2.9	15.249	The unit complies with the requirements of 15.249

EUT Configuration

EUT Configuration				
Work Order: F0764				
Company: LS Starrett				
Company Address: 121 Crescent Street Athol, MA 01331				
Contact: John Belliveau				
		MN	SN	
EUT:				
EndNode - Starrett Opto Connector		1500-3-N	Sample 1	
EUT Description: Endnode				
EUT Max Frequency: 916.6MHz				
Support Equipment:		MN	SN	
None				
EUT Cables:	Qty	Shielded?	Length	Ferrites
Tool extension cable	1	Yes	0.1m	None
Unpopulated EUT Ports:		Qty	Reason	
None				
Software / Operating Mode Description:				
EUT was running in the transmit mode specified by the test. The modes available are: sleep, ASK transmit, OOK transmit, and receive. Unless otherwise stated the EUT was operating in ASK transmit mode which is the maximum transmitted power level mode.				

Fundamental Measurement**LIMIT**

QuasiPeak: 93.9dBμV/m @ 3m [15.35(b)]

MEASUREMENTS

										Measurement Distance: 3 m		
Notes:										EUT Max Freq: 916.3MHz		
Antenna Polarization (H / V)	Frequency (MHz)	Reading (dBμV)	Preamp Factor (dB)	Antenna Factor (dB/m)	Cable Factor (dB)	Adjusted Reading (dBμV/m)				FCC Class B		
										Limit (dBμV/m)	Margin (dB)	Result (Pass/Fail)
Vpk	902.0	21.8	20.2	21.6	8.1	31.3				46.0	-14.7	Pass
Vpk	928.0	21.9	20.2	21.8	8.2	31.7				46.0	-14.3	Pass
Table Result: Pass by -14.3 dB Worst Freq: 928.0 MHz												
Test Site: "A"			Pre-Amp: Black		Cable: EMIR-06		Analyzer: White			Antenna: Green		

Radiated Spurious Emissions

LIMITS

Average (above 1000MHz): $500\mu\text{V/m} = 53.9\text{dB}\mu\text{V/m}$ @ 3m [15.249(a), (b), and (d)]

QuasiPeak limit (30-1000MHz): FCC Class B limits @ 3m [15.35(b)]

Note: If Peak measurements meet Average limits, then Average measurements are not required.

MEASUREMENTS

Spurious Emissions										Curtis-Straus LLC		
Date: 28-Oct-05			Company: LS Starrett						Work Order: F0764			
Engineer: David Harris			EUT Desc: Endnode									
Frequency Range: 30MHz-10GHz							Measurement Distance: 3 m					
Notes:							EUT Max Freq: 916.3MHz					
Antenna Polarization (H / V)	Frequency (MHz)	Reading (dBμV)	Preamp Factor (dB)	Antenna Factor (dB/m)	Cable Factor (dB)	Adjusted Reading (dBμV/m)				FCC Class B		
										Limit (dBμV/m)	Margin (dB)	Result (Pass/Fail)
H	1832.0	34.8	18.7	28.4	2.5	47.0				54.0	-7.0	Pass
H	2749.0	27.5	20.3	30.7	3.0	40.9				54.0	-13.1	Pass
Table Result:		Pass	by	-7.0 dB				Worst Freq:		1832.0 MHz		
Test Site: "F"		Pre-Amp: Yel-Blk		Cable: EMIR-HIGH 5		Analyzer: Orange		Antenna: Yellow Horn				

AC Line Conducted Emissions

LIMITS

Frequency of emission (MHz)	Quasi-peak limit (dBμV)	Average limit (dBμV)
0.15-0.5	66 to 56*	56 to 46*
0.5-5	56	46
5-30	60	50

*Decreases with the logarithm of the frequency.

[47 CFR 15.207(a)]

MEASUREMENTS

AC Line Conducted Emissions is NA because the EUT is Battery powered.

Voltage Variations

Voltage Variations test is NA because the EUT is battery powered.

Test Equipment Used

Terms And Conditions

Paragraph 1. SERVICES. LABORATORY will:

- 1.1 Use the degree of care and skill ordinarily exercised by and consistent with the standards of the profession.
- 1.2 Perform all technical services in substantial accordance with the generally accepted laboratory principles and practices.
- 1.3 Retain all pertinent records relating to the services performed for a period of three (3) years following submission of the report describing such services, during which period the records will be made available to CLIENT upon reasonable request.

Paragraph 2. CLIENT'S RESPONSIBILITIES. CLIENT or his authorized representative will:

- 2.1 Provide LABORATORY with all plans, schematics, specifications, addenda, change orders, drawings and other information for the proper performance of technical services.
- 2.2 Designate a person to act as CLIENT's representative with respect to LABORATORY's services to be performed on behalf of the CLIENT; such person or firm to have complete authority to transmit instructions, receive information and data, interpret and define CLIENT's policies and decisions with respect to the LABORATORY's work on behalf of the CLIENT and to order, at CLIENT's expense, such technical services as may be required.
- 2.3 Designate a person who is authorized to receive copies of LABORATORY's reports.
- 2.4 Undertake the following:
 - (a) Secure and deliver to LABORATORY, without cost to LABORATORY, preliminary representative samples of the equipment proposed to require technical services, together with any relevant data.
 - (b) Furnish such labor and equipment needed by LABORATORY to handle samples at the LABORATORY and to facilitate the specified technical services.

Paragraph 3. GENERAL CONDITIONS:

- 3.1 LABORATORY, by the performance of services covered hereunder, does not in any way assume any of those duties or responsibilities customarily vested in the CLIENT, its employees, or any other party, agency or authority.
- 3.2 LABORATORY shall not be responsible for acts of omissions of any other party or parties involved in the design, manufacture or maintenance of the equipment or the failure of any employee, contractor or subcontractor to undertake any aspect of equipment's design, manufacture or maintenance.
- 3.3 LABORATORY is not authorized to revoke, alter, release, enlarge or release any requirement of the equipment's design, manufacture or maintenance unless specifically authorized by CLIENT or his authorized representative.
- 3.4 THE ONLY WARRANTY MADE BY LABORATORY IN CONNECTION WITH ITS SERVICE PERFORMED HEREUNDER IS THAT IT WILL USE THAT DEGREE OF CARE AND SKILL AS SET FORTH IN PARAGRAPH 1 ABOVE. NO OTHER WARRANTY, EXPRESS OR IMPLIED, IS MADE OR INTENDED FOR SERVICES PROVIDED HEREUNDER.
- 3.5 Where the LABORATORY indicates that additional testing is advisable to obtain more valid or useful data, and where such testing has not been authorized, CLIENT agrees to view such test reports as inconclusive and preliminary.
- 3.6 The LABORATORY will supply technical service and prepare a report based solely on the sample submitted to the LABORATORY by the CLIENT. The CLIENT understands that application of the data to other devices is highly speculative and should be applied with extreme caution.
- 3.7 The LABORATORY agrees to exercise ordinary care in receiving, preserving and shipping (F.O.B. Littleton, MA) any sample to be tested, but assumes no responsibility for damages, either direct or consequential, which arise from loss, damage or destruction of the samples due to the act of examination, modification or testing, or technical services or circumstances beyond LABORATORY's control.
- 3.8 The LABORATORY will hold samples for thirty (30) days after tests are completed, or until the CLIENT's outstanding debts to the LABORATORY are satisfied, whichever is later.
- 3.9 The CLIENT recognizes that generally accepted error variances apply and agrees to consider such error variances in its use of test data.
- 3.10 It is agreed between LABORATORY and CLIENT that no distribution of any tests, reports or analysis other than that described below shall be made to any third party without the prior written consent of both parties unless such distribution is mandated by operation of law. It is agreed that tests, reports, or analysis results may be disclosed to third party auditors of the laboratory at the laboratory facility in the course of accreditation maintenance audits. No reference to reports or technical services of the LABORATORY shall be made in any advertising or promotional literature without the express written permission of the LABORATORY.
- 3.11 The CLIENT acknowledges that all employees of LABORATORY operate under employment contracts with the LABORATORY and CLIENT agrees not to solicit employment of such employees or to solicit information related to other clients from said employees.
- 3.12 In recognition of the relative risks and benefits of the project to both CLIENT and LABORATORY, the risks have been allocated such that the CLIENT agrees, to the fullest extent permitted by law, to limit the liability of the LABORATORY to the CLIENT for any and all claims, losses, costs, damages of any nature whatsoever or claims expenses from any cause or causes, including attorneys' fees and costs and expert witness fees and costs, so that the total aggregate liability of the LABORATORY to the CLIENT shall not exceed \$100,000, or the LABORATORY'S total fee for services rendered on this project, whichever is greater. It is intended that this limitation apply to any and all liability or cause of action however alleged or arising, unless otherwise prohibited by law.

Paragraph 4. INSURANCE:

- 4.1 LABORATORY shall secure and maintain throughout the full period of the services provided to the CLIENT adequate insurance to protect it from claims under applicable Workmen's Compensation Acts and also shall maintain one million dollars of general liability coverage to cover claims for bodily injury, death or property damage as may arise from the performance of its services.
- 4.2 The CLIENT hereby warrants that it has sufficient insurance to protect its employees adequately under applicable Workmen's Compensation Acts and for bodily injury, death, or property damage.
- 4.3 No insurance of whatever kind or type, which may be carried by either party is to be considered as in any way limiting any other party's responsibility for damages resulting from their operations or for furnishing work and materials.

Paragraph 5. PAYMENT:

- 5.1 CLIENT shall pay to LABORATORY such fees for services as previously agreed, orally or in writing, within 30 days of presentment of a bill for such services performed. In the event CLIENT ordered, orally or in writing, services but such services were not assigned a rate for billing, such services shall be billed at the LABORATORY's reasonable and customary rate.
- 5.2 CLIENT shall be responsible for all shipping, customs and other expenses related to services provided by LABORATORY to the CLIENT, and shall fully insure any test sample or other equipment provided to LABORATORY by the CLIENT.
- 5.3 Amounts overdue from CLIENT to LABORATORY shall be charged interest at a rate of 1½% per month.

Paragraph 6. ISO/IEC GUIDE 17025 ADDITIONS:

- 6.1 CLIENT agrees that this test report will not be reproduced except in full, without written approval from the LABORATORY.
- 6.2 CLIENT agrees that this test report shall not be used to claim product endorsement by A2LA or ANSI or any agency of the U.S. Government.
- 6.3 CLIENT agrees that test results presented herein relate only to the sample tested by the LABORATORY.

A2LA Accreditation
