Product Name: PC64 Industrial 4G Router

Model(s): PC64, PC64-W6-MT-C6, PC64-W6-MT-C4-AI, PC64-W6-MT-C4, PC64-W6H-MT-C4, PC64-W6H-MT-C6, PC64-W6-MT-C16, PC64-W6H-MT-C16

Model difference

PC64, PC64-W6-MT-C6, PC64-W6-MT-C4-AI, PC64-W6-MT-C4, PC64-W6H-MT-C4, PC64-W6H-MT-C6, PC64-W6-MT-C16, PC64-W6H-MT-C16 share the same basic platform, enclosure design, power circuitry, cellular circuitry and overall hardware architecture. Except for the circuitry and components associated with the HaLow function, all other hardware construction and operating principles are substantially identical.

The differences among the models are as follows:

|                                                                      |                        |
|----------------------------------------------------------------------|------------------------|
| PC64, PC64-W6-MT-C6, PC64-W6-MT-C4-AI, PC64-W6-MT-C4, PC64-W6-MT-C16 | without HALOW function |
| PC64-W6H-MT-C4, PC64-W6H-MT-C6, PC64-W6H-MT-C16                      | with HALOW function    |

For detailed information, please refer to the internal photo on page 5.

Yours sincerely,

---
