

TIVO USB WiFi 5 Adapter™

SETUP GUIDE

THIS BOX INCLUDES:

TiVo USB WiFi 5 Adapter, 10" Extension Cable, Velcro

SETUP

STEP 1: Remove the cap from the USB adapter.

STEP 2: Insert the adapter into the USB slot on the back of your TiVo Mini VOX® or, for optimal performance, attach the extension cable to the USB adapter and plug the cord into the USB slot on your TiVo Mini VOX.

STEP 3: If using the extension cable, place the USB adapter on top of your TiVo Mini VOX. For best reception, position the adapter as close as possible to your Wi-Fi router. Use the Velcro to secure the adapter.

NOTE: If you are setting up your TiVo Mini VOX for the first time, connect the USB adapter before you begin Guided Setup.

STEP 4: When prompted to choose a wireless network during setup, select the 5 GHz network (if available) for best performance.

TROUBLESHOOTING

Having trouble connecting to Wi-Fi or watching video? Here are some helpful tips:

1. Try to access the Internet from other devices connected to your home network. If you can't, follow the steps you routinely use to restore your home network connection.
2. Go to the Network Settings screen and confirm that the correct wireless network name is displayed. If a 5 GHz network is available, be sure that it is the one being used. If necessary, select Change Network Settings to update your network information.
3. Restart your router or cable modem by unplugging the power cord, waiting 10 seconds, then plugging it back in.
4. Restart the TiVo Mini VOX by unplugging it, waiting 10 seconds, and plugging it back in.
5. Check for other possible sources of wireless interference. For example, wireless speakers or other devices operating in the 2.4 GHz or 5 GHz range can impact your connection.

Limited Warranty

TiVo USB WiFi 5 Adapter

90 Days Free Parts and Labor

WHO IS COVERED?

You must have proof of purchase to receive warranty service. A sales receipt or other document showing that you purchased the product is considered proof of purchase.

WHAT IS COVERED?

TiVo warrants that the wireless adapter will be free from defects in materials and workmanship during the limited warranty period described herein. The limited warranty coverage begins the day you purchase the product. For 90 days from the purchase date, the wireless adapter will be replaced with a repaired, renewed or comparable product (at TiVo's discretion) if it becomes defective or inoperable. This exchange is done without charge to you for parts and labor (except applicable taxes, if any). You will be responsible for the cost of shipping. Contact Customer Support at (877) 367-8486 for exchange. All products, including replacement products, are covered only for the original warranty period. When the warranty on the original product expires, the warranty on the replacement product also expires.

WHAT IS EXCLUDED?

Your warranty does not cover:

- Any taxes imposed on TiVo for units replaced or repaired under this warranty.
- Product replacement because of misuse, accident, unauthorized repair or other cause not within TiVo's control.
- Incidental or consequential damages resulting from the use of the product. (Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you.)
- A product that has been modified or adapted to enable it to operate in any country other than the country for which it was designed.
- A product used for commercial or institutional purposes.

MAKE SURE YOU KEEP...

Please keep your sales receipt or other document showing proof of purchase. Also keep the original box and packing material in case you need to return your product.

Regulatory Information

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Safety Notices

- Caution: To reduce the risk of fire, use only No.26 AWG or larger telecommunication line cord.
- Do not use this product near water, for example, in a wet basement or near a swimming pool.
- Avoid using this product during an electrical storm. There may be a remote risk of electric shock from lightning.

Specific Absorption Rate (SAR) information:

This Wi-Fi Adapter meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Wi-Fi Adapter (FCC ID: TX4-ED31A00) has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the Wi-Fi Adapter kept 5mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 5mm separation distance between the user's body and the edge of the Wi-Fi Adapter. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
