Power Consumption	Maximum 10 W

CAUTION

NOTICE: To prevent fire and electric shock, do not expose this receiver to rain or moisture. In order to avoid any possible risk of electric shock, never attempt to open the unit. In case of the unit breaking down, report of the unit should be carried out by qualified technicians. No part of the unit should be repaired by user.

WARNING:

- Place the receiver in a well-ventilated location to prevent accumulation of internal heat.
- Protect the receiver from high temperatures, humidity, water and dust.
- Do not place any object near your unit that might damage it (e.g. liquid filled objects or candles).

HDMI is a trademark or registered trademark of HDMI Licensing LLC in the United States and other countries.

Any use of the product in any manner other than personal use that complies with the MPEG-2 standard for encoding video information for packaged media is expressly prohibited without a license under applicable patents in the MPEG-2 patent portfolio, which license is available from MPEG LA, L.L.C. 6322 S. Fiddlers Green Circle, Suite 400B, Greenwood Village, Colorado 80111 U.S.A.

This product is licensed under the AVC patent portfolio license for the personal use of a consumer or other use in which it does not receive remuneration to (i) encode video in compliance with the AVC standard ("AVC video") and/or (ii) decode AVC video that was encoded by a consumer engaged in a personal activity and/or was obtained from a video provider licensed to provide AVC video; no license is granted or shall be implied for any other use. Additional information may be obtained from MPEG LA, L.L.C. at <http://WWW.MPEGLA.COM>.

Safety Instructions

Before you begin: Make sure all your equipment is turned off and the Evolution eSTREAM Device is unplugged. The Evolution eSTREAM Device is not designed to support any load. To ensure proper function, make sure that the device is not in an enclosed space, and do not place anything on top of the device.

Safety Information

This product was designed and manufactured to meet strict quality and safety standards. There are, however, some installation and operation precautions of which you should be particularly aware. Please read these instructions before operating the equipment and save them for future reference.

- Read Instructions** – All the safety and operating instructions should be read and understood before the appliance is operated.
- Retain Instructions** – The safety and operating instructions should be retained for future reference.
- Head Warnings** – All warnings on the appliance and in the operating instructions should be followed.
- Follow Instructions** – All operating and use instructions should be followed.
- Water and Moisture** – The appliance should not be used near water – for example, near a bathtub, washbowl, kitchen sink, laundry tub, in a wet basement, near a swimming pool, etc.
- An Appliance and can combination should be moved with care.** Quick stops, excessive force, and uneven surfaces may cause the appliance and can combination to overturn.
- Stability** – All televisions must comply with recommended international global safety standards for tilt and stability properties of their cabinet design. Do not compromise these design standards by applying excessive pull force to the front, or top, or the cabinet, which could ultimately overturn the product. Also, do not endanger yourself, or children, by placing electronic equipment (top or the cabinet). Such items could unexpectedly fall from the top of the set and cause product damage and/or personal injury.
- Ventilation** – The appliance should be situated so that its location or position does not interfere with its proper ventilation. For example, the appliance should not be situated on a bed, sofa, rug, or similar surface that may block air flow across the device.
- Heat** – The appliance should be situated away from heat sources such as radiators, heat registers, stoves, or other appliances (including ovens) that produce heat.
- Power Cord Protection** – Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them, paying particular attention to cords and plugs.
- Object and Liquid Entry** – Never push objects of any kind into the product through cabinet slots, as they may touch dangerous voltage points or short the parts, resulting in the risk of fire or electric shock. Never spill liquid of any kind on the product.
- Damage Requiring Service** – The appliance should be serviced by qualified service personnel when:

- A. the power supply cord or plug is damaged or frayed;
- B. liquid has spilled into the product;
- C. the product has been exposed to rain or water;
- D. the product does not operate normally when you follow the operating instructions.

1.1. Relocate or relocate the receiving antenna.

1.2. Increase the separation between the equipment and receiver.

1.3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

1.4. Consult the dealer or experienced radio/TV technician for help.

WARNING

Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

CAUTION: Exposure to Radio Frequency Radiation.

Antenna should be mounted in such a manner to minimize the potential for human contact during normal operation; the antenna should not be contacted during operation to avoid the possibility of exceeding the FCC radio frequency exposure limit.

(adjust only those controls that are discussed in this guide, as improper adjustment of other controls may result in damage, often requiring extensive work by a qualified technician to restore the product to normal performance).

F. The product has been damaged or the cabinet damaged.

13. Servicing – The user should not attempt service to the appliance beyond that described in the Troubleshooting section of this guide. All other servicing should be referred to a qualified service personnel.

14. Cleaning – Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners; use a damp cloth for cleaning. If the product comes in contact with any liquid, unplug the power cord and let the unit dry thoroughly by leaving it unplugged 3 hours.

15. Power Source – This product should be operated only from the type of power source indicated on the marking label or in this guide. If you are not sure of the type of power supply to your home, consult your dealer or local power company.

16. Overloaded Power Outlets – do not overload wall outlets and extension cords, as this can result in the risk of fire or electric shock.

17. Electric Shock – To reduce the risk of electric shock, do not disassemble this product. Take it to a qualified service person when service or repair work is required. Opening or removing covers may expose you to dangerous voltage or other risks. Incorrect assembly can cause electric shock when the product is subsequently used.

18. Moving – Avoid moving the unit while it is plugged in to avoid accumulative shock.

FCC Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for CLASS B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

dts HD Android TV IC: 25683-PA2114HW FCC ID: 2A0019-PA2114HW

技术要求:

1. 成形尺寸: 95.2 * 127 mm
2. 产品不能变形、压痕、划伤、脏污等缺陷
3. 图案文字印刷清晰, 色差在允许范围内
4. 风琴折
4. 80g书纸, 4C, 正反面印刷
