> Question #1: The proposed FCC ID label format does not contain
labeling requirement specified in FCC15.19. Based on FCC rule, only
those devices smaller than palm size (8 x 10 cm) is allowed to put
labelling statement into the manual instead. Please revise the FCC ID
label format.

> Question #2: Based upon FCC2.1033(b)(5), "A block diagram showing the
frequenc of all oscillators in the device". Please revise the block
diagram to show the frequencies of local oscillator/crystal. By the way,
the schematics in the filing is not clear enough to read the crystal
values.
