Subject: Class II Permissive Change for FCCID: TZ2SAFEMARKTR

Dear Sir,

I would like to submit a Class II Permissive Change for TCB or FCC Filing application. It is because we change the carrier frequency of the device (FCCID: TZ2SAFEMARKTR) from 316.845 MHz to 315.000 MHz which is changed by Software (NOT change on hardware or parts).

Best Regards,

Mr. Lei Zhu (Manager)
