

Class II Permissive Change Request Letter

Date: 2014/4/28

FEDERAL COMMUNICATIONS COMMISSION
Authorization and Evaluation Division
7435 Oakland Mills Rd
Columbia MD 21046-1609
U.S.A.

To whom it may concern,

We, Senao Networks, Inc. would like to confirm that the product with FCC ID: U2M-PCE4551AH (Grant date: 11/15/2013) has further modification as below, so we would like to apply for this C2PC submission.

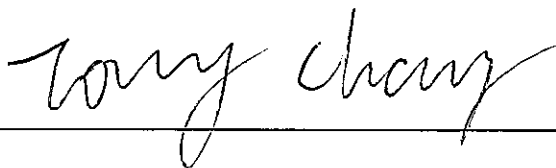

The module (FCC ID: U2M-PCE4551AH) will be installed within below two hosts:
Brand: Senao
Model name: IAP7260AG / IAP7261AG

Above two specific hosts also contain another certified WiFi module (FCC ID: U2M-PCE3300AN). Although this WiFi module is certified under both of 2.4G and 5G function, the 5G function is disabled by software setting always.

This C2PC modification is only concerned with the Co-located issue to that WiFi module; neither circuit design nor main function has been changed.

This is client's request, since our buyer wants to see the test report shown on FCC website which can comply with latest test guideline. In order to meet the request from our client, so C2PC is done.

Sincerely yours,

Mr. Tony Chang
Senao Networks, Inc.
