Re: FCC ID: U4A-YRIZW1US

To Whom It May Concern:

The following application is submitted on behalf of our client, Assa Abloy Inc., for evaluation of their models YRD110-ZW-US and YRD120-ZW-US for certification under FCC Part 15.249.

Models YRD110-ZW-US and YRD120-ZW-US are electromechanical deadbolt locks, where the user can interact with the lock by using the touchscreen/pushbuttons on the outside escutcheon, a few buttons and a thumbturn on the inside escutcheon, and/or by sending Z-Wave RF commands to it using the proper Z-Wave controller.

The only difference between the two models is that one has a pushbutton interface, and the other has a touchscreen interface on the front escutcheon. All other functionality is the same.

The YRD110-ZW-US and YRD120-ZW-US were both tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
