

Date: gen. 25, 2017

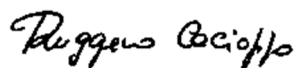

To Whom It May Concern:

We, Datalogic S.r.l. hereby apply for Permissive Change to the approved product under FCC ID: **U4GDLX3G** (IC: **3862E-DLX3G**), to portable category when applied in the Personal Device Assistant platform Brand Name: **Datalogic** model: **DL-Axist WWAN**.

Per KDB178919 RF exposure compliance and applicable maximum ERP/EIRP rules are observed for antenna changes. Due to the host antenna is designed with higher gain for the intentional transmit frequency bands in 1900MHz than original module. ERP/EIRP and radiated spurious emission testing is performed with the FCC ID: **U4GDLX3G** (IC: **3862E-DLX3G**). After comparison with testing result, host contains lower ERP/EIRP and radiated performance in the intentional frequency bands is expected to be lower than that measured in the original modular approval in order to demonstrate RF Compliance.

Please kindly review the submitted test report for this Permissive Change application.

Sincerely yours,

Ruggero Cacioppo / Product Quality Leader
