Re: Request for application examination for the Awarepoint BLE Tags  
(Models BLET and BLETW).

Applicant: Awarepoint Corporation

Application Examiner,

Awarepoint Corporation is submitting this application for the original certification of their BLE Tag radio transceiver, FCC ID: UAG-BLET. Tags may be one of two configurations, either Asset (Model BLET) or Wearable (Model BLETW) and are identical with respect to the firmware, PWB design, radios, antennas and internal assembly but differ in two respects: 1) Asset Tags contain two 500mAH batteries where Wearable Tags contain one 500mAH battery and 2) Wearable Tags have their touch sensor IC installed where Asset Tags do not. The technical report and exhibits demonstrate compliance with FCC rules 47 CFR 15.247 for both the Bluetooth Low Energy and 802.11bg SISO Radios.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

John Taylor  
Senior Sustaining Engineer
