Request for Class II Permissive Change

October 17, 2018

Federal Communication Commission
Equipment Authorization Division
Application Processing Branch
7435 Oakland Mills Road
Columbia, Maryland 21046

FCC ID : UAY-W8997-M1216
Applicant : Marvell Semiconductor, Inc.

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: UAY-W8997-M1216, originally granted on 01/25/2017 and all its permissive changes.

We have obtained Modular Approval in Mobile configuration for this module. This time, it is used in the portable host devices (HD Memory Card Camera Recorder, Model GY-HC900CHU). SAR testing with the host devices was performed, and the Class II permissive change application in Portable configuration is submitted.

When this module is installed, the following points are changed by the software of the host device.
- BT/BLE is disabled.
- Output powers of WLAN 2.4GHz and 5GHz are reduced and it is tuned to operate at a lower power setting than the original output power.

For details of this modification, please refer to the following documents.
There is no change before and after change except for these documents.

☒	Test Report (SAR)
☐	RF Exposure
☐	External Photo
☐	Internal Photo
☒	User Manual (Host device)
☐	Label drawing/ location
☐	Block Diagram
☒	Theory of Operation
☐	Schematic Diagram
☐	Parts List

This time, we confirmed that this product still meets the minimum requirements of the applicable rules of FCC.

Thank you for your attention to this matter.
Sincerely,

Ken Wu
