

OC101 Series - 2K Wi-Fi Battery Camera: Installation Guide

Installation Guides November 6, 2025

This article provides instructions for installing the 2K Wi-Fi Battery Camera.

Note: The screenshots in this guide are for illustration purposes only. The look of the Lorex Connect app may vary slightly depending on your device, app version, or operating system.

What's Included:

1. 2K Wi-Fi Battery Camera
 2. Mounting Bracket
 3. Power Cable
 4. Power Adapter
 5. Screws and Anchors (2x)
-

Mounting Instructions

Note: You must charge your camera before mounting. If you are using a solar panel it will keep the camera charged, but it is still recommended to charge your camera beforehand.

1. Your camera comes connected to its mounting bracket, to screw in the mount you must first unscrew the mount from the camera.
2. Use the mounting bracket to mark on the wall where you want to place your camera.
3. Drill holes and insert anchors in the wall, then screw your mounting bracket into the wall.
4. Screw your camera onto your mounting bracket. Angle your camera and then turn the wheel at the top of the bracket to secure. Make sure that you do not mount the

camera up side down because the passive Infra-Red (PIR) will not work

correctly.

5. Connect your solar camera to the secure charging port if applicable.
6. Onboard your camera using the instructions below.
7. To turn on your camera, press and hold the reset button. Pressing it again will reset the camera so only do this once.

Onboarding:

Onboarding your camera will connect it to your phone via the Lorex Connect App so that you can control settings and view the recordings.

1. Launch the Lorex Connect App. In the top right corner of the My Home tab, tap the

icon.

2. If you have an IOS device, tap Add a device. For Android devices, your app will skip this step for you.
3. In the list of devices, tap your OC101 camera.

4. Scroll through the instructions, and tap **Continue > Add this device**.

5. Choose your Wi-Fi from the list of networks or tap **Rescan again**.

Connect to your
Wi-Fi network

Network
My_WiFi

Enter network password

●●●●●●●●●●

☒ Remember password for future device setup.

6. Input your Wi-Fi password and tap **Continue**.
7. Name your camera and tap **Continue**.
8. Sign up for Lorex Cloud or skip this step.
9. Choose if you would like to add image previews.
10. Choose if you would like to enable audio recording.
11. Finish onboarding and tap **Let's Go!**

12. Once you onboard your device you must set the time. Tap your camera's thumbnail

>  Icon > **Camera Settings** > **Time Settings** > and select your time zone.

13. Tap **Save** to confirm.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a

particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help. To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: 1. This device may not cause harmful interference, and 2. This device must accept any interference received, including interference that may cause undesired operation. FCC Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

(ISED Canada) Statement

The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to cochannel mobile satellite systems. This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: 1. This device may not cause interference. 2. This device must accept any interference, including interference that may cause undesired operation of the device. This device meets the exemption from the routine evaluation limits in section 5.3.2 of RSS-102 and complies with RSS-102 RF exposure requirements. Users can obtain Canadian information on RF exposure and compliance.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

L'appareil destiné à fonctionner dans la bande 5150-5250 MHz est uniquement destiné à une utilisation en intérieur afin de réduire le potentiel d'interférences nuisibles aux systèmes mobiles par satellite cocanaux. Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux CNR exempts de licence d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes : 1. Cet appareil ne doit pas causer d'interférences. 2. Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil. Cet appareil est conforme à

l'exemption des limites d'évaluation courante dans la section 5.3.2 du CNR-102 et conforme à l'exposition aux RF selon le RSS-102. Les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs RF et la conformité. Cet équipement est conforme aux limites d'exposition aux radiations du Canada dans un environnement non contrôlé. Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps.
