

Thank you for purchasing the Samsung Bluetooth Mono Headset WEP20X, we hope you will be delighted with its operation.

Please read this user's guide to get started, and to make the best use of the headset's many features.

Driving safety

- When you are driving a car, driving is your first responsibility.
- When using your headset while driving, follow local regulations in the country or region are in.

BEFORE USING YOUR HEADSET

Checking phone compatibility

Your headset is compatible with most Bluetooth phones that are compliant with Bluetooth version 2.0 and support the headset and/or hands-free profile(s). Ensure that your phone has Bluetooth capability by visiting your phone manufacturer's web site.

Your headset overview

Checking the accessories

Make sure you have the following items with your headset: Charging case, Travel adapter, Manual, 2 headset hooks

Charging the headset

Your headset uses a rechargeable battery. You must charge the battery fully before using the headset for the first time.

User Manual

Dream Technology Co., Ltd.

1. Put the headset in the supplied charging case and close the cover.

2. Plug the travel adapter into the case's charging socket.
3. Plug the travel adapter into the electrical outlet.

- Charge the headset until the red light on the headset turns to blue.
- The headset will be fully charged in approximately 2 hours.

4. Remove the travel adapter from the case.

WARNING : Do not attempt to charge the headset with anything other than the travel adapter provided. Using unauthorized travel adapter may damage the headset.

IMPORTANT : Removing the travel adapter from the case during charging will turn the headset off and stop the charging progress. The headset cannot be used while charging.

Storage of the headset

- Always store the headset with the power off and make sure it is safely protected.
- Avoid storage at high temperatures (above 40C/104F). such as in a hot vehicle or in direct sunlight. (Storage at high temperatures can damaged performance and reduce battery life).
- Do not expose the headset or any of its supplied parts to rain or other liquids.

blue.		is low. Recharge the battery. ● There is only 1 minute of talk time left
-------	--	---

* Depending on the phone type and usage, the actual time may vary.

Pairing with your Bluetooth phone

Pairing will create a unique and encrypted wireless link between two Bluetooth enabled devices, such as your Bluetooth phone and Bluetooth headset.

1. Ensure that the headset is off (see Turning the headset on/off).
2. Press and hold the Multi-Function button until the indicator light turns on in blue(approximately 8 seconds).

3. Set your Bluetooth phone to discover the headset by following your phone's guide. Typically, the steps involve going to a 'Setup', 'Connect', or 'Bluetooth' menu on your phone and then selecting the option to discover Bluetooth devices.
4. Your phone will find the Samsung WEP20X headset and ask if you want to pair with it. Confirm this by pressing the Yes or OK key.
5. Enter a passkey or PIN, 0000(4 zeros), then press the Yes or OK key.

IMPORTANT : If pairing was successful, the indicator light will flash in blue 10 times rapidly before going to flashing every 3 seconds. If unsuccessful, the light remains on, and you will need to re-attempt pairing.

Wearing the headset

Wear the headset on your ear. In general, you will get better performance when there are no obstructions (including parts of your body) between the headset and the phone. Depending on what ear you are going to wear the headset, simply adjust the hook accordingly.

To switch it back on, press and hold the button again.

APPENDIX

Frequently asked questions

How far away from my phone will the headset work ?	The operating range is typically up to 30 feet (10 meters).
Will the headset work with my cordless phone at home?	The headset is not designed for use with cordless phones.
Will the headset work with laptops, PCs, and PDAs?	The headset will work with devices that are compliant with Bluetooth version 2.0 and support the headset and/or hands-free profile(s).

User Manual

Dream Technology Co., Ltd.

Will anything cause interference with my conversation when I'm using the headset ?	Appliances such as cordless phones and wireless networking equipment may cause interference with your conversation. To reduce any interference, keep the headset away from other devices that use or produce radio waves.
Will the headset interfere with my car's electronics, radio, or computer?	The headset produces significantly less power than a typical mobile phone. It also emits signals that are in compliance with the international Bluetooth standard. Therefore, you should not expect any interference with standard consumer-grade electronics equipment.
Can other Bluetooth phone users hear my conversation ?	When you pair the headset to your Bluetooth phone, you are creating a private link between only these two Bluetooth devices. The wireless Bluetooth technology used in the headset is not easily monitored by third parties, because Bluetooth wireless signals are significantly lower in radio frequency power than those produced by a typical mobile phone.
How do I take care of the headset?	To clean the headset, use a clean, soft cloth that is slightly damp.
