Letter of Declaration of Indoor Access Point Operation

Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern:

We, Cisco Systems, Inc., attest that this device under FCC ID UDX-600218010 complies with device protocol requirements and operational restrictions:

1. Device Protocol Attestation Statement:

- a. An Access Point's Transmit Power Envelope element has information fields for power limits for connecting client/subordinate devices. The TPE information is contained in the device signals and used by connecting the client/subordinate to ensure that it knows the regulatory TX powers it is allowed to transmit. There is a regulatory info field in this device beacon and probe response frames, which details this device type when the client/subordinate associates with this device.

2. The statement acknowledging device restrictions:

- a. This AP is powered from a wired connection, has an integrated antenna, is not battery powered, and does not have a weatherized enclosure.
- b. This device's operation will not be allowed on oil platforms, cars, trains, boats, and aircraft, except that operation of this device is permitted in large aircraft while flying above 10,000 feet only in the 5.925-6.425 GHz band.
- c. This device is prohibited for control of or communications with unmanned aircraft systems, including drones.
