

## SmartLink Pro Instruction

### Description

SmartLink pro is a Hot-swappable dongle. The curtains or roller blinds can be opened, closed, and positioned via the Bond app after connecting the dongle to curtain or roller blind motor

### Configuration Requirements

A Bond Bridge pro with Internet connectivity and a phone with the Bond app installed.

### Pair dongle to Bond Bridge Pro

1. Open the Bond app and tap the plus sign in the upper right corner.

2. Select "Shades, Roofs, Screens & Awnings"

3. Select "BTX Shade"

4. Click "Start"
5. Change the device name and select the room to install,
6. Press and hold the button on the dongle for 3-5 seconds, the LED will solid blue and the motor will jog.
7. Click "pair" in the app.
8. Set the limits according to the prompts.

## Control the motor

The motor can be operated by turning it on/off or by dragging the position bar in bond app.

## FCC Notice

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

RF warning for portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation
