

Bluetooth Headset

Quick Guide

SX-888

For user' s safety, please read this manual before using the headset.

The following matters should be paid attention to when using headset:

Please avoid long-term use of high volume mode, because it will lead to hearing loss caused by noise.

If you are in bad condition of potential danger, please stop using headset, in order to ensure safety.

Users should reasonably control the volume and time when listening to the headset.

The volume should not be too high,otherwise you can' t hear the voice around. If volume is too high that may appear tinnitus, please lower down the volume.

Don't listen to the music while driving.

Use dry soft cloth to clean the headset! Should avoid the headset into the water, that will cause headset damage.

If you feel obvious discomfort, stimulation, or other adverse reaction when using the headset, stop using it immediately .

The headset should not be stored or used in temperature below 15°c(5°F) or higher than 55°c(131°F),otherwise will reduce the battery life.

Charging and Battery:

Before charge this headset with charging cable, please check whether the charge cable is original.

Warning :

Please charge the headsets with original charging cable, it may damage the battery or the headset if you are using improper charging cable. This headset has built-in rechargeable battery, so do not attempt to remove the battery from the headset to avoid damaging it.

1. Before charging, it' s better to turn off the headset.
2. Insert the USB charging cable to earpiece jack, the other end of the USB port into the USB charger or any other devices to start charging. The red light flashing means it is charging.

3. The headset needs about 4 hours for fully charging, the red light goes off when fully charged.
