Wireless Gaming Headset with Speaker

User Manual

Thank you for buying our products. To ensure the best performance of this product please read this manual carefully. This manual will guide you use SX-822 the product

For user’ s safety, please read this manual before using the headset.

The following matters should be paid attention to when using headset:

Please avoid long-time use of high volume mode, because it will lead to hearing loss caused by noise.

If you are in bad condition of potential danger, please stop using headset, in order to ensure safety.

Users should reasonably control the volume and time when listening to the headset.

The volume should not be too high,otherwise you can’ thear the voice around. If volume is too high that may appear tinnitus, please lower down the volume.

Don't listen to the music while driving.

Use dry soft cloth to clean the headset! Should avoid the headset into the water, that will cause headset damage.

If you feel obvious discomfort, stimulation, or other adverse reaction stop using it immediately .

The headset should not be stored or used in temperature below -15°C(5°F) or higher than 55°C(131°F),otherwise will reduce the battery life.

Charging and Battery:

Please charge the headsets with original charging cable, it may damage the battery or the headset if you are using improper charging cable.

This headset has built-in rechargeable battery, so do not attempt to remove the battery from the headset to avoid damaging it.

The battery (battery pack or combination) must not be exposed to conditions such as sunlight, fire, or similar overheating.

If the battery is not properly replaced, there is a danger of explosion and it can only be replaced with a battery of the same type or equivalent.

Warning

The power adapter for charging the product is 5V/1A, if use high voltage power adapter for charging the machine, there is the risk of burning machine!

FCC Requirement

changes or modifications not expressly approved by the party responsible for compliance could void the user’ s authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

– Reorient or relocate the receiving antenna.

– Increase the separation between the equipment and receiver.

– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

– Consult the dealer or an experienced radio/TV technician for help.
