General Information. The warranties described in this Section shall not apply: (i) to any Product subjected to accident, misuse, neglect, alteration, Acts of God, improper handling, improper transport, improper storage, improper use or application, improper installation, improper testing or unauthorized repair; or (ii) to cosmetic problems or defects which result from normal wear and tear under ordinary use, and do not affect the performance or use of the Product. ARRIS' warranties apply only to a Product that is manufactured by ARRIS and identified by ARRIS owned trademark, trade name or product identification logos affixed to the Product. ARRIS does not warrant to you, the end user, or to anyone else that the Software will perform error free or without bugs.

Any dealings with any third parties (including advertisers and/or sponsors) appearing on the Product, and any other terms, conditions, warranties or representations associated with such dealings are solely between you and those third parties. ARRIS is not responsible for examining or evaluating, and does not warrant the offerings of, any of these businesses or individuals or the content of their websites. ARRIS does not assume any responsibility or liability for the actions, products, or website contents of any third parties. You should carefully review their privacy statements and other conditions of use.

You acknowledge that some security breaches involve attacks on data. For example, there are viruses and other malware that: (i) delete or destroy your data (sometimes individual files, but sometimes even an entire disk by corrupting a master boot record or other key element); (ii) modify your files (such as parasitic malware that attaches itself to a file and modifies the file to enable its own execution and/or propagation); and (iii) encrypt files on your drive (such as ransomware that uses asymmetric encryption).

The best way for you to protect yourself from these types of attacks is frequent back-ups of your data to another device/location. This provides another copy of the data in the event that the attacking software has deleted, modified, or destroyed the data. It is your sole and exclusive responsibility to back-up all data and files on your device so that they can be restored in the event of an attack on your data. Without such a back-up, it may not be possible to restore any deleted, destroyed, or modified data/content. McAfee is not liable for loss of or recovery of data, or for files or loss of use of systems or networks arising from attacks on data.

Our Products come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
