RE: CONFIDENTIALITY REQUEST FOR LEITLINK 4GF/UJV-LEITLINK
To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the block diagrams, schematics, and operational description required to be submitted with this application be permanently withheld from public review.

These documents contain detailed system and equipment descriptions about the product which DIG Corporation considers to be proprietary, confidential, and a custom design, and otherwise, would not release to the general public. DIG Corporation feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Levy", written over a horizontal line.

Jonathan Levy
