Turn off: Fold the control handle.

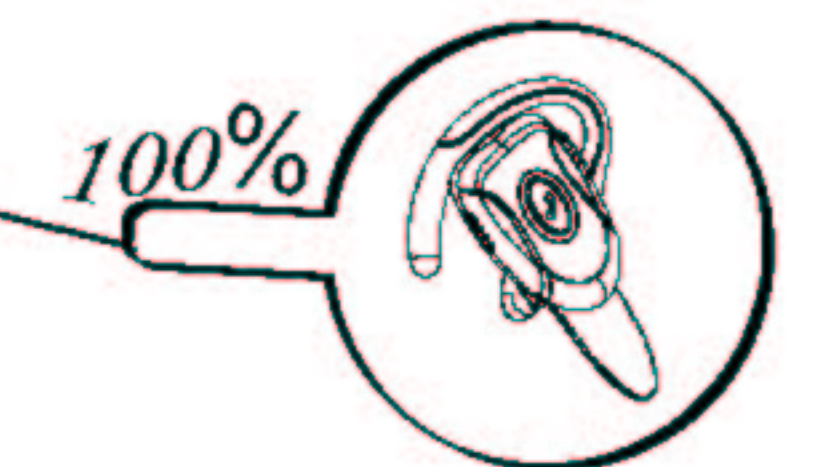

old

Pairing Your Headset and Mobile Phone

Putting the headset and mobile phone near each other:

Operation steps:

1. With headset off, hold multi functional Button for 5–6 seconds until the LED purple light lasting, unfold the control handle quickly.
 2. Find a device discovery from the mobile phone. As to the details on device discovery for your mobile phone, refer to the mobile phone user's guide.
- When the scan is complete, the mobile phone displays " devices found".
3. Select the FJ990 from the discovered device list and perform according to clues on the mobile phones.
 4. During confirmation of the mobile phone, enter the password " 0000 " and confirm that it has been paired with the headset.
- The device ID has now been stored in the phone's memory. Pairing is successful when the headset indicator flashes several times rapidly.
5. After pairing completed, open the controlled handle and connect the bluetooth headset to your phone automatically.
 6. After the success for the first time pairing, you only need unfolding the control handle for re-connecting.

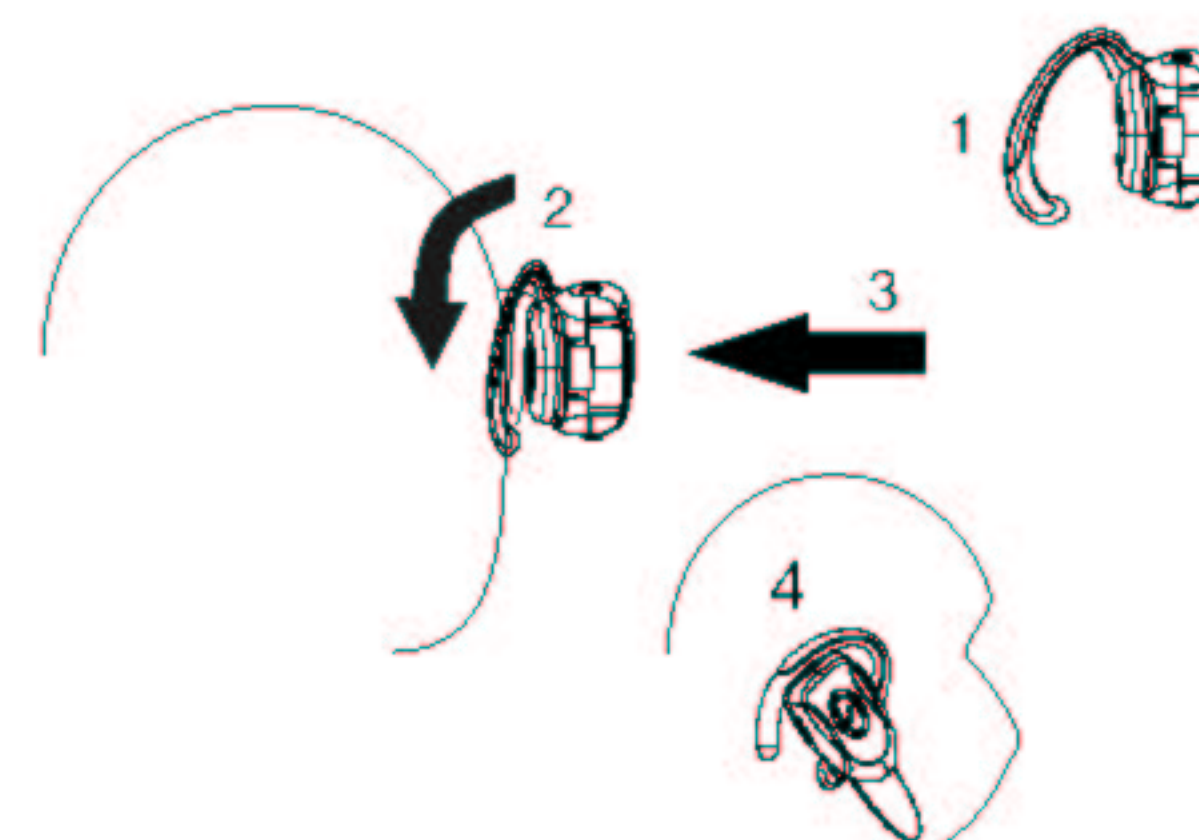

Wearing Your Headset

Note: In the packing box, the headset is set up to wear on your right ear.

To place the headset on your ear:

Action:

1. Open the earhook (90 degree from the headset)..
2. Loop the earhook behind your ear..
3. Press the headset to your ear.
4. Point the microphone toward your mouth.

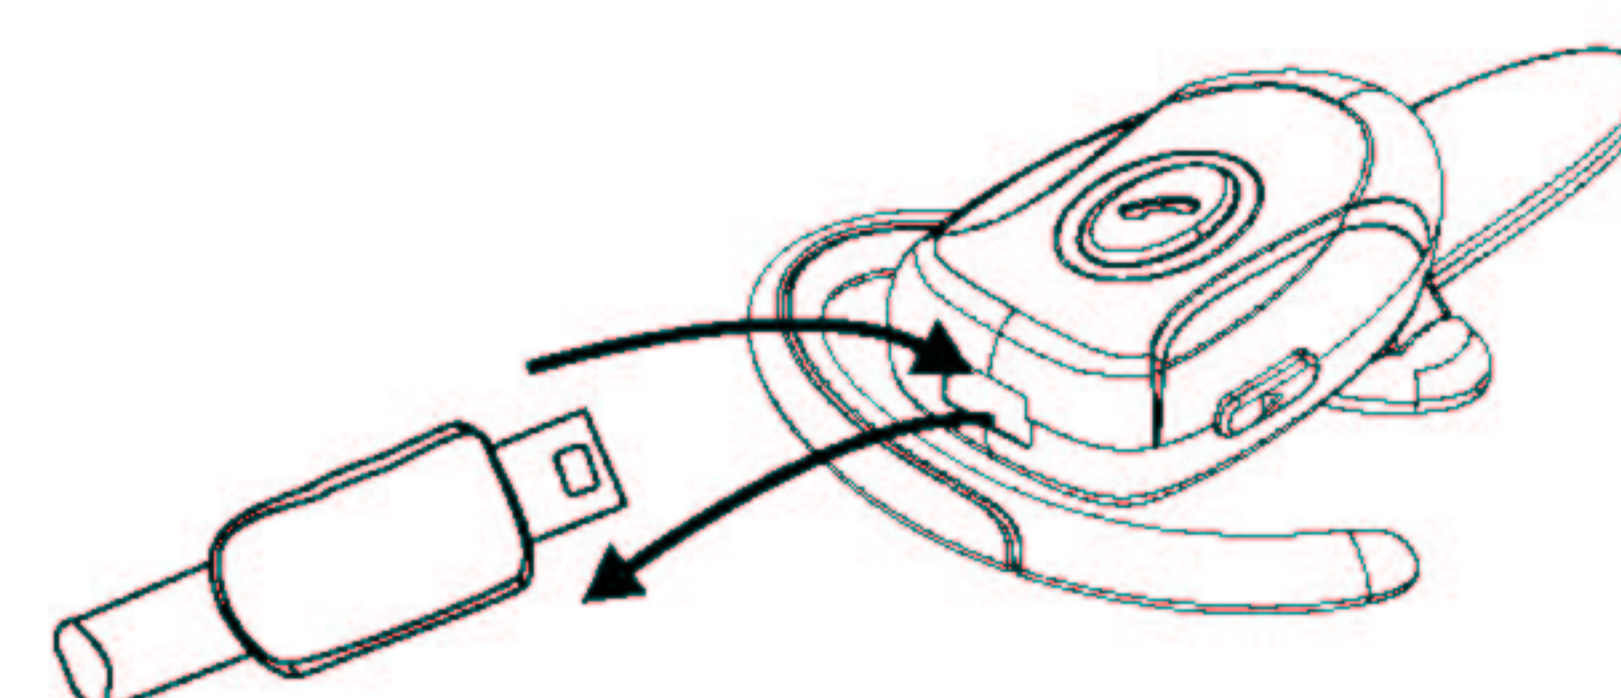

Charging Your Headset

Operation steps:

Fj990 Bluetooth headset uses a rechargeable battery that must be charged fully before you use the headset for the first time.

1. Plug the AC charging adaptor into the headset's charging socket.
2. LED is red when the bluetooth headset is charged and it will be turned to green after charging fully.
3. Plug the AC adaptor into the electrical source.
4. The bluetooth headset will be fully charged in approximately 2 hours.
5. Remove AC charging adaptor from the headset.

Notification: The bluetooth headset must be charged another 1.5 hours after the LED light is off.
