**Charging the earphones**

- to charge earphones, when earphones attached to charger case, press charger button once,
 - > the charger's battery level is shown by blue LEDs for 5 sec:
 - 4x LEDs lit = >95% ~full,
 - 1x LED flashing = <20%
 - > red LEDs lit on earphones' button cap,
 - > until earphones are fully charged, then earphones' LEDs turn blue
- to recharge the charger carry case, open the lid for micro USB port, and connect recharge cord to USB power source;
 - > flashing of the 4 blue LEDs indicates charging,
 - > until all 4 LEDs lit constant indicate charging is full

Pairing the earphones

- a) press and hold both earphones' [play/call] button > together for 5 sec until LEDs lit flashing blue
- b) wait for 5 sec. and left and right earphones paired each other, the main side LED turn blue + red, and the other flash blue slowly
- c) open Bluetooth on your phone and search for name 'STiCK' and touch to connect
- d) the main side LED also turns to flash blue very slowly (every 12sec.) and now this pair of earphones are connected to your phone

When you need to disconnect the headphones;

- e) switch off Bluetooth function on your smart phone,
 - f) the main side earphones' red LED will flash slowly (1x/sec.) , and the other earphone flash blue LED very slowly (every 12sec.)
 - g) then press and hold either earphone's [play/call] button > 3sec., the pair of earphones will flash red fast (3x/sec.) and turn OFF, (pairing memory will be kept there)
- Next time when you turn ON the headphones again, it will automatically connect to your smart phone again and blue LED lit and flash very slowly again (your smart phone's Bluetooth function also need to be ON and is nearby <5M)

If you need to pair the earphones with a new smart phone;

- h) switch off Bluetooth function on your smart phone,
- i) then power on your new smart phone's Bluetooth function,
- j) after press and hold [play/call] button > 3sec. to power OFF the earphones, and Then you repeat steps as in above a) to d).

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement

This device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
