

Wireless Headset Instructions

Charging your headset:

1. Your headset uses a rechargeable battery. You must charge the battery fully before using the headset for the first time.
2. Plug the adapter into the electrical outlet and connect to the headset through the charging contact.
3. Charge the headset until the light on the headset turns off (generally 2 hours for full charge).
4. Remove the charger from the charging contact and unplug the adapter from the outlet.
5. DO NOT attempt to charge the headset with any other adapter than the one provided in this package.

How to POWER ON/POWER OFF your headset:

Press and Hold the multifunction button for 5 seconds until you see 4 blue flashes on the indicator light, then release.

Pairing your headset and cellular telephone:

1. Ensure that the headset is off.
2. Press and hold the multifunction button until the indicator light turns on in blue (approx. 8 seconds).
3. Set your Bluetooth-Compatible Phone to discover the headset by following your phone's guide.
4. Typically, the steps involve going to a "setup" connect" or "Bluetooth" menu option on your phone
5. Select the option to locate, find or discover Bluetooth devices.
6. Press and hold the multifunction button on the Wireless Headset until your cellular phone locates the device.
7. Your phone will find "-PBH-8W" and ask if you want to pair with it. Confirm by pressing Yes or OK.
8. Your phone may ask for the password to the headset. Enter "0000" (four zeros) for the code or passkey
9. Your wireless device will operate up to 30 feet from the wireless telephone. If you exceed this range, you may have to re-connect the device

Using and Wearing your headset:

1. Insert the ear hook into the back of the headset. You can insert this to wear on either your right or left ear.
2. Loop the ear hook behind your ear, press the headset to your ear and point the microphone toward your mouth.
3. To receive or end a call, simply press the multifunction button on the earpiece.
4. Volume can be adjusted by the volume control buttons on the side of the headset.

WARNING STATEMENT:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. In cases where the manual is provided only in a form other than paper, such as on a computer disk or over the Internet, the information required by this section may be included in the manual in that alternative form, provided the user can reasonably be expected to have the capability to access information in that form.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled exposure.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
