

PCPROX QuickStart Guide

1 Download Users Guide

Download the complete User's Guide at
www.lathem.com/pcproxguide

2 Add to PayClock Online

- Add your new PCPROX to your PayClock Online database before installation.
- Login to www.payclock.com, select **Clocks**, then **New**, choose **PCPROX**, enter the **Serial Number** and **Save**.
- The serial number is located on back of PCPROX or on box label.

3 The PCPROX offers three different connection options:

Wi-Fi

Ethernet

Power-Over-Ethernet (POE)

Note: Existing network must be set up for POE. Please verify with your I.T. Dept.

4

Mount bracket

Mount bracket 45" from the floor, close to AC power and ethernet source if applicable.

Mount bracket to wall

5

Connect cables

Connect cables as needed to back of PCPROX

6

Hang PCPROX

Hang PCPROX on wall bracket

7

Secure PCPROX

Secure PCPROX with locking screw

8

Plug in power

Do not use with POE

Plug in power adapter to wall outlet and connect Ethernet cable if applicable.

9

Connect network

Follow welcome instructions on PCPROX screen to connect to network

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
This transmitter is restricted to indoor use in the 5150MHz to 5250MHz frequency range.

The clock Admin passcode is **99999**. This can be changed in the clock's Advanced tab in PayClock.com.
