

Quick Start Guide

Dispho®

First step: Bluetooth pairing

Long press the Photo button for 2 seconds to enter the Bluetooth matching state, open the mobile phone to enter the Bluetooth search state, and click "Dispho" in the search device to connect successfully, the self-timer stick green light will be on for a long time.

Second step: open the phone holder

Set this product face up and turn the phone holder in the back downward for 90° to open it. Then rotate the holder 180° horizontally to face forward.

Third Step: Fix the phone

Rotate the phone holder till you can pull open the holder handle and fix the phone securely on the holder.

Fourth Step: Use tripod

This product comes with a tripod. Open the selfie holder from the bottom and fix it on a steady horizontal plane, then you can start to enjoy your selfie shooting experience.

Battery replacement

Take the remote control out, turn the remote control to the reverse side, and remove its back cover according to the arrow direction, then the battery can be replaced.

FCC statements: This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.	NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
