Operating Instructions

1.Before using the tripod, gently tap the bottom release button of the product onto the ground, and the tripod will automatically unfold. (Warning: When opening the tripod, do not approach your head or face.)

2.Lean the phone horizontally against the handle on the upper side of the stand, push it up, then install it inwardly. Finally, adjust the phone's horizontal screen to the middle position of the stand.

3.Rotate the phone stand 90° towards the remote control and 60° backward. It can be used horizontally in both landscape and portrait modes. When converting from landscape to landscape, make sure to move the phone a little before rotating it.

4.The bracket is equipped with a hidden universal cold shoe port. By pushing it upwards with your hand,you can install other applicable accessories for use. (Accessories need to be purchased by yourself.)

5.To take a handheld photo, first remove the remote control, then turn the knob counterclockwise and tighten the upper stand as well, and then proceed with the handheld photo.

Charge the remote control

When the battery of the remote control is low,please insert a Type-C charging cable into the charging port of the remote control to charge it.

Notes:

1. Watch your hands during use.

2. The product is not designed for children under 14 years old.Do not swallow it.

3. Do not dismantle or modify the product.

4. Do not store the product in a humid environment.

5. Keep the product away from heat sources.

6. Do not expose the product to water or other liquids in case of damage.

CE

Warning:- replacement of a battery with an incorrect type that can defeat a safeguard;

- disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;

- leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas; and

- a battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

\*This device is a low-power radio transmitter and receiver. As recommended by international guidelines, the device meets applicable national SAR limits of 2.0W/kg (10g),10g SAR: meets low-power exclusion level, SAR test is not required.

This product can be used across EU member states.

EU Regulatory Conformance

Hereby,Winners' Sun declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

For the declaration of conformity, visit the Web site [www.winnersun.com/certification](http://www.winnersun.com/certification).

FCC

FCC statements:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement, The device can be used in portable exposure condition without restriction. Federal Communication Commission (FCC) Radiation Exposure Statement Power is so low that no RF exposure calculation is needed.
