Re: Request for Family Approval

Applicant: Paxton Access Ltd

FCC ID: USE500010

Product Description: 125 kHz Proximity Marine reader

To Whom It May Concern.

Request is hereby submitted by Paxton Access Ltd to conduct a Family Approval Application for the 125 kHz Proximity reader (as detailed above), with the following named additional host unit variants.

- Proximity Marine reader (Satin)
- Proximity Marine reader (Chrome)

Both Paxton 'Proximity' products share the same radio module based on the Philips HTRC circuit. Both proximity products have identical circuit board housing, potting and the same cable assembly. The only differentiating factor is the finish on the outside of the product has a different colour.

If you have any questions or comments, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read 'K Feeney', is placed below the 'Sincerely,' text.
