COOPER PowerTools

Types cordless Tool Series

Below all Tool types with angle style listed:

Cooper Power Tools MODEL NO.: 47BAWB15AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 47BAWSB15AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 47BAWB21AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 47BAWSB21AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 47BAWB28AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 47BAWSB28AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

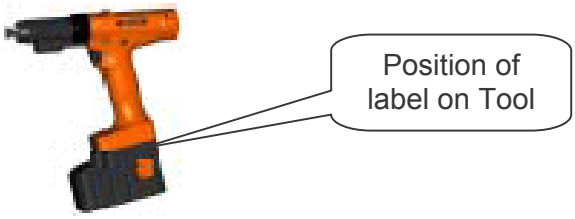
Cooper Power Tools MODEL NO.: 47BAWB35AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 47BAWSB35AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 47BAWB50AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 47BAWSB50AM3
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Below all Tool types with pistol style listed:



Cooper Power Tools MODEL NO.: 17BPWB05Q
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 17BPWSB05Q
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 17BPWB07Q
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 17BPWSB07Q
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 17BPWB09Q
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 17BPWSB09Q
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 17BPWB13Q
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Cooper Power Tools MODEL NO.: 17BPWSB13Q
FCC ID : UTQ-W2400A IC : 4706E-W2400A
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.
