Re: Class II Permissive Change: UTU-01019715

Dear Sir(s):

Please accept this Class II Permissive Change request pursuant to §2.1043(a). This change affects the Grant issued on 01/12/2018 (RF Power Reduction).

The Radio Module firmware is controlled by the factory, and cannot be changed by the end user. The firmware migration does not affect the RF characteristics, and BT and Zigbee remain non-functional.

The changes include:

a) Addition of two (2) new host units:

- PwrPak7D P/N: 01019941
- PwrPak7D-E1 P/N: 01019942

b) Migration of Radio Module firmware from Version 1.6.8. to Version 1.7.0.

The firmware changes are described in the correspondence entitled RS9113SB_Release Notes.pdf, accompanying this application.

Sincerely,

A handwritten signature in blue ink, appearing to read "D. Therens", is written over a faint, larger blue ink signature that is partially obscured.
