REQUEST FOR CLASS II PERMISSIVE CHANGE

Federal Communication Commission
Equipment Authorization Division, Application Processing Branch
7435 Oakland Mills Road
Columbia, MD 21046

September 6, 2018

TO WHOM IT MAY CONCERN

This is to request a Class II Permissive Change, Rule Part 15.247, for FCC ID: UUMKWM1000, originally granted on August 28, 2018.

The change filed under this application is:

- Add model KF1000 (white) and KF1001 (black) Yagi-type antenna which includes FCC approved BLE module under FCC ID: QOQBGM111.

The addition of this new antenna type does not require any hardware changes to the approved device, and no other changes are made to the device. The frequency range remains the same and no new channels are being added to those evaluated in the original application.

Please refer to the attached documents for details of these modifications.

We submit the following documents related to this change.

- Test Report
- Antenna Information
- External Photos
- Request for Confidentiality
- Application Form

We performed the testing and confirmed that this product still meets the minimum requirements of the applicable rules of the FCC. Please refer to the test report submitted with this application.

Sincerely,

Paul Bruzek
VP Design and Manufacturing
