Dear Sir or Madam:

This letter is written to request supersede of the Internal Photos Exhibit for the following applicant due to having received incorrect internal photos from an outside test lab; due to product similarities, our technical evaluator and document control staff were not able to differentiate these photos from the correct one. In order to prevent reoccurrence of this error, we now require a serial number of the EUT as well as the serial number(s) printed upon the internal circuit board(s); these will be required in a section of the test report entitled Internal Configuration.

FCC ID: UUPHSH21A
