Columbia, MD 21046

Object: Declaration Letter for R1170IUAPLP - qIDmini Keyfob Bluetooth UHF RFID Reader (FCC) with Apple profile and R1170IUHIDP - qIDmini Keyfob Bluetooth UHF RFID Reader (FCC) with HID profile

FCC ID: UVECAENRFID017

The product submitted for the FCC certification is available in two versions:

- 1) R1170IUAPLP, designed for operation with Apple devices and embedding the Apple authentication coprocessor and the Bluetooth module Roving RN42 (FCC ID: T9J-RN42) with specified FW for Apple support.
- 2) R1170IUHIDP, without the authentication coprocessor and embedding the Bluetooth module Roving RN42 (FCC ID: T9J-RN42) with standard FW (no Apple support).

Pretesting measurements of both versions have shown the same RF behaviour, so we request to apply only for one FCC grant.

The test report provided for the certification application contains the measurements performed on the HID version (R1170IUHIDP).

Sincerely

Adriano Bigongiari
