
Limited Module Approval Request Letter

Date: 2016/2/17

Subject: Module Approval

FCC ID: UZ7CDRDB

To Whom It May Concern:

We, Sporton International Inc., are authorized by Zebra Technologies Corporation to have their state-of-the-art 802.11 a/b/g/n/ac radio module approved under module approval authorization. The application of this module is specified to mobile host equipment. The requirements regulated in CFR47 Part 15.212 have been fulfilled and clearly explained below.

1. The requirement of RF shielding: The shielding of the radio portion can be demonstrated in exhibition External Photo.
2. The requirement of buffered inputs: Buffered data inputs stage has been integrated in chip BCM43465.
3. The requirement of power supply regulation: The part number of the power regulator is AP3417CDNTR-G1 & MP2130DG-LF-Z.
4. The requirements of section 15.203 and 15.204(C): The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition Test Report.
5. The requirement of labeling: The instruction on the labeling rule of the end product has been stated in the users manual of this module. Please also see the exhibition Label Sample.
6. The requirement of RF exposure: Please refer exhibition RF Exposure for the compliance of MPE RF exposure rule.

Below items have not been fulfilled in module approval request:

1. The requirement of stand-alone test configuration: The device is limited to Model: AP-8533 and AP-8533I (Brand: ZEBRA)
2. The requirement of compliance on specific rule or operating requirements: This device requires professional installations but the instructions weren't clearly stated in the Users Manual.

Please do not hesitate to contact me for any questions of this request letter. Thank you.
